## THE EDITORIAL NOTE · ISSUE 002

# Three accountability fronts

Technical power is no longer enough. We must show who decides, under which rule and from which source.

**Christophe  
Boeraeve**

Member of the Brussels  
Bar · Founder of Law Right

Algorithmic transparency, non-profit governance and creators' rights.

**AI · TRANSPARENCY****01**

## Europe's AI enters the age of proof: who answers for decisions made by a machine?

Signal detected · Decision explained · Owner identified

**GOVERNANCE · NON-PROFITS****02**

## Non-profits under the transparency test: the new responsibility of directors

Mandate · Control · Account

**COPYRIGHT · AI****03**

## Article 50

# Europe's AI enters the age of proof: who answers for decisions made by a machine?

The European framework is becoming daily practice: disclose, explain and preserve accountability.

Static plate · Law Right 2026. [View the motion online](#)

## What changes

The European framework is becoming daily practice: disclose, explain and preserve accountability.

## The useful rule

The rule requires a demonstrable chain between source, decision and accountable person.

## An intelligible trail makes accountability workable.

Duties applicable since 2 August 2026

## Three steps
